

Each Requirements Artifact should contain enough detail that your GTA can determine if that requirement is met in the Sprint 2 release

User Stories

- Profile Management (Requirement ID: 3)
 - As a logged-in user, I want to update my profile information, including the name, and password, so that I can keep my account information accurate and up-to-date
 - Acceptance Criteria
 - Users can update their name and password
 - System can validate the new password criteria
 - Changes are saved and reflected in user's profile
 - User is notified of successful changes to their profile
- Delete Activity (Requirement ID: 11)
 - As a user, I want to be able to delete an activity from my trip itinerary in case I happen to change plans of what I want to do on my trip
 - Acceptance Criteria
 - "Add Activity to Itinerary" requirement is complete
 - Each activity displays a "Delete" button or icon
 - When user clicks delete:
 - a confirmation prompt appears, asking user if they want to continue/confirm the deletion
 - If user CONFIRMS deletion:
 - Activity is removed from users trip
 - User receives a success notification
 - Updated list of activities (excluding the deleted one) is displayed
 - If user cancels the deletion:
 - Activity remains on the list, and no changes occur.
- Add Activity (Requirement ID: 8)
 - As a user, I want to add an activity to my itinerary by naming an activity, selecting a location, and entering activity details so that I can plan out each day.
 - Acceptance criteria
 - View Itinerary requirement must be complete already
 - System displays view of the itinerary that is broken down by days
 - Each day's activities, along with their names and times, are clearly listed
 - User can choose a location for the activity by typing user input
 - User can input name and time
 - System saves the activity and updates the itinerary for the selected trip
- View Itinerary (Requirement ID: 9)
 - As a user, I want to view itinerary showing all activities I have scheduled so that I can keep track of my trip plans
 - Acceptance criteria
 - System displays view of the itinerary that is broken down by days

- Each day's activities, along with their names and times, are clearly listed
- Delete Trip (Requirement ID: 6)
 - As a user, I want to be able to delete a trip from the database/my account for trips that are no longer relevant to me.
 - Acceptance Criteria:
 - User is logged in and has an active session
 - User navigates to dashboard of trip list
 - User sees a list of all their created trips
 - Each trip displays a "Delete" button or icon
 - When user clicks delete:
 - a confirmation prompt appears, asking user if they want to continue/confirm the deletion
 - If user CONFIRMS deletion:
 - Trip is removed from users account
 - User receives a success notification
 - Updated list of trips (excluding the deleted one) is displayed
 - If user cancels the deletion:
 - Trip remains on the list, and no changes occur.
- Responsiveness (Requirement ID: 18)
 - As a user, I want the system's interface to be smooth and responsive with little to no lagging, so that I can have a convenient experience when managing my trips
 - Acceptance Criteria
 - Pages load within a reasonable timeframe
 - User interactions have minimal delay
 - Performance is tested to ensure no lagging or stuttering during navigation and updates
